Art Unit 1713

1. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1 and 2, drawn to heterocyclic compounds, classified in Class 548, subclass 1+.

II. Claims 3-5, drawn to polymeric entities, classified in Class 526, subclass 1+.

III. Claims 6-8, drawn to method of making compounds, classified in Class 548, subclass 1+.

IV. Claims 9 and 10, drawn to different compounds, classified in Class 552, subclass 1+.

The inventions are distinct, each from the other because of the following reasons:

Groups I and IV are to mutually exclusive compounds, one with unsaturation and one without, and Group II is to a polymer, therefore a final product of the intermediate of Group I compounds. These claims are restrictable insofar as the compounds could be made by materially different processes and used for other organic synthesis. The method of making the compounds, Group III is also, therefore, properly restricted.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as

shown by their different classifications, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
